Subject: No Bank of Wal-Mart

As a University student I am writing in regards to Wal-marts notion of opening a new Bank of Wal-mart. It's hard enough as a college student to rely on my own bank as a device for operating and maintaing my slowly decreasing bank account, but add a super-giant like wal-mart into the picture and my privately owned bank will be shut down. A Wal-Mart bank is a great risk to the FDIC and American fiscal security due to its sheer size. I am asking that you stop Wal-mart from taking capital out of local communities and creating an even bigger monopoly of commercial and financial power. Thank you for taking the time to read this message, I hope that you will take action over the topic I have sent.
